All of this while maintaining the highest levels of security: bank-grade encryption and the incredibly secure Microsoft Azure.

The Best of Both Worlds

The security of having your own database on your own server – nothing is stored in the cloud or on your device. The full power and functionality of the world's best and most complete practice management system – much more than any “cloud” product could offer. The freedom to use it from anywhere on any device. So you get the advantages of cloud, and the power of Premium.

TimeTracker Too!

Amicus Anywhere also includes **Amicus TimeTracker**, so you can see and do your time entries effortlessly on your smartphone, anytime, anywhere. Capture billable time you were losing before by recording it live on your phone.
